

Moving from Paper-Based
to On-line System

The Workforce Excellerator™.

Fostering Dramatic Organizational Change
Through an Easy to Use, Affordable Web-based System.

Overview

We all want to move faster and get more done.
In business, we can't just survive - we must thrive.

That is why the *Workforce Excellerator™* was created. The *Workforce Excellerator™* is a low-cost, web-based system for managing employees. It is the most intuitive and cost-efficient toolset anywhere.

As a turn-key ASP solution, the *Workforce Excellerator™* allows companies to move away from paper-based files and binders into a fully-managed on-line system. All this for less than your three-ring binder budget.

Before you know it, you will have the ability to manage your employees, plan strategically and measure your results... all with the touch of a button.

Applications

Soon you will be using the *Workforce Excellerator™* to manage:

- Recruiting and Staffing
- Employee Orientation
- Competency Development
- Performance Management
- HR Policies and Procedures.

Documenting Results

You will also be able to measure the positive impact of the *Workforce Excellerator™* through:

- Real-time user tracking
- Multiple reporting options
- Report summary graphs and charts.

The *Workforce Excellerator™* is a system that enables you to manage your workforce quickly and easily, in a safe and secure environment.

It's time for the *Workforce Excellerator™*!
